The work upon the natatorium to be built on the corner of Alameda street and Court Place for Judge Barnes and Col. Martin, has been commenced and is being prosecuted in earnest. It being intended to have the place in running order by August 10th if possible. The arrangements throughout will be up to date, and the building of the most solid and permanent character really ornamental in its finish. The swimming tank will cover area of 100 by 33 feet commencing with a depth of 24 feet it will at the further end have a depth of 94 feet, and a capacity of 170,000 gallons. This tank can be filled within 25 hours by the pumping plant that will be attached to the institution and is owned by Messrs. Barnes and Martin. The water will be pumped from the valley about two hundred feet west. Special hours will be set apart for ladies and children. A pipeline connecting with the ice works steam plant will secure a supply of warm water when needed. The location selected is an admirable one. Col. Martin is enthusiastic over the project and is giving it his personal attention. —Star.
